PROFESSIONAL EXPERIENCE

Unity/C# Instructor | theCoderSchool | Syosset, NY

June 2023 - Current

- Instructing over 25 students to help them create games in Unity.
- Teaching fundamental practices of programming, UI, and game design.

UI and Art Lead | Project Pop | Boston, MA

March 2023 - Current

- Working with a team of six individuals to create a game in Unity.
- Coordinating art and sound assets with both the art and programming teams to create a seamless transition between visuals and gameplay mechanics .
- Creating and implementing UI mockups from Figma to Unity.

PROJECTS

Burnout

Spring 2025 - Current

- Created a mobile Unity card game for release in Summer 2025.
- Implemented 120 cards with corresponding unique effects, as well as a system to create them easily.
- Pushing and documenting frequent updates via itch.io

FrameGuessr.info

Spring 2025

- Developed a Flutter-based web-app which allows users to guess the timestamps of frames from a movie.
- Integrated Firebase back-end to host images, timestamps and scores.
- Created over the course of two days, and providing continuous updates.

See You In Hell

Winter 2025

- Unity game developed over one week for Code for a Cause Jam 2025.
- Acted as project lead, writer, and programmer for a team of four.
- Created comprehensive (fake) email system where users can receive emails with pseudo-random distribution.
- Wrote eighty emails which determine the fate of in-game characters.

NOVA Browser

Fall 2024 - Summer 2025

- Led team to create Firefox fork with improved security.
- Suite of extensions which include: Telemetry Removal, Built-In Ad Block, AI-Powered Search, SSL/TLS Encryption, Crash Recovery, Custom UI
- Produced comprehensive documentation including design documents and project proposals.

Dota 2 Machine Learning Model

Summer 2024

- 84% success rate model, which calculates win percentages accounting for player drafts.
- Utilized Python Flask to create a robust and responsive UI.
